

Clean Air Protocol & Products

Protocols and products that James River Air Conditioning Co. offers that can help reduce airborne particles that can carry and transmit viruses, bacteria, pollen and molds. Please note – none of these products offer a complete elimination of the threat of a virus, but combined with known strategies, they can lower the risk and probability of transmission. Coronavirus or any flu, cold, or allergy is about the management of each step you take to reduce your probability.

1 Steam Humidification / DeHumidification

Proper humidity reduces the ability of droplets and particles to float and thus transmit. Suggested humidity levels >40% <60% are the target zone* (Forbes article)

Recommended Suggestion: Steam Humidifier / Dehumidifier
was \$3200 now \$2900 | was \$3600 now \$3200

2 Ionization Light Technology

Ionization Light Technology – creates charged particles that attach to airborne particles causing them to drop to floor away from face. This technology can dramatically reduce particles that carry viruses and rev up allergies.

Recommended Suggestion: **iWave** iWave Ionizer
was \$1200 now \$875

3 UV Light Purification

UV light incinerates mold and viruses and can be highly effective at transmission control and reduction of allergies.

Recommended Suggestion: UV Light Unit
was \$900 now \$800

4 HEPA / MERV13 Filter

Filters ultra-small particles that can allow transmission of viruses and filters some actual viruses.

Recommended Suggestion: HEPA Filter / Media Filter
\$2800.00 / \$600.00

5 Electronic Air Filter

Electronic Air Filters are extremely effective at capturing very small particles and charging them so they stick to a capture plate.

Recommended Suggestion: **Honeywell** Electronic Air Filter
was \$1400 now \$1200

6 Thermostat Monitoring

Thermostats monitor temperature and humidity and can be managed via an excellent remote app on your iPhone or Android.

Recommended Suggestion: **Honeywell** T-10 Thermostat
was \$478 now \$399

Ultimate IAQ Bundle

- iWave Ionizer
- HEPA Filter
- UV Light Unit
- Electronic Air filter
- T-10 Thermostat

Only **\$5700**

Please feel free to call our office at any time to ask questions, or for assistance with any heating, cooling, plumbing, electrical or indoor air quality questions.

Sincerely,

Hugh A. Joyce - President, James River Air
